Welcome USS Holland

USS Holland (AS-12) has arrived in Guam and has moved into its new home at Pohaku Point.

The submarine's tender and more than 1,000 crew members arrived at Apra Harbor on Friday after leaving its previous home port of Coronado, Calif., on April 21. They were greeted by Guam Navy officials, with family and friends and members of civic groups.

Holland is commanded by Capt. Charles Young, but carrying USS Pueblo AS-31, which has been homeported in Guam since 1968 as the forward-deployed support for U.S. submarine operations in the Western Pacific.
